

Synergy 21 LED light panel 620*620 35W V3 PRO KW / W UGR

Ultra Slim LED Panel Light, PRO version – 24 V DC system panel

Intended use

Installation in the Odenwald ceiling

Further installation types are possible with optional accessories:

Surface-mounted, flush-mounted, suspended, wall-mounted and recessed installation.

Why 24 V DC instead of constant current?

The decisive difference

With classic LED panels with constant current, the panel is permanently linked to a specific driver. Changes in dimming, control or expansion often require a complete driver change.

24 V DC panels consistently separate the luminaire and control unit.

The panel becomes an **open-system lighting component**.

The advantages of 24 V DC technology in practice

Easy connection

- No constant current design necessary

- clear, standardised system voltage (24 V DC)
- Quick and safe installation

Centralised power supply

- Multiple panels possible on one power supply
- fewer power supply units in the ceiling
- Clear and maintenance-friendly installation

Free choice of control

- Dimming and control via the power supply unit
- Compatible with DALI, KNX, TRIAC, Zigbee, Loxone and many more
- Easy adaptation to different project requirements

High future security

- Control can be changed or expanded later
- No need to replace the lights
- ideal for new builds and retrofitting

Planning reliability

- One panel for many applications
- Lower stock keeping
- Uniform system across multiple projects

General product data

- **Frame colour:** White;
- **Power consumption:** 35 watts
- **Luminous flux:** 4000 lm

(120 lm/W, up to 135 lm/W; LED module efficiency 150 lm/W)

- **Light colour:** Cold white; 5700 K
- **MacAdam / SDCM:** < 3
- **Colour rendering (CRI):** > 83
- **Beam angle:** 90°
- **Glare limitation:** UGR < 19

Power supply & dimming

- **Power supply:** 24 V DC (system voltage)
- **Dimmable:** depending on the power supply unit used
- Multiple panels can be operated on one power supply unit

Compatible with common control systems, e.g.:

- DALI
- TRIAC
- KNX
- Zigbee
- Loxone
- PWM controller
- Other 24 V control solutions

Protection & service life

- **Protection class:** IP40
- **Impact resistance:** IK05
- **Nominal service life:** L80 / 50,000 h

- **Working temperature:** –20 °C to +45 °C (ambient)

Dimensions

- **Dimensions:** 622 × 622 × 12 mm
- **Hole size:** 605 × 605 mm

Scope of delivery & accessories

The panel is supplied **without a power supply unit** as standard.

This allows **free selection of the optimum power supply unit** to match the desired dimming and control solution.

For suitable power supply units (e.g. DALI, TRIAC, KNX, Zigbee etc.) see accessories.

Guarantee

- **5-year manufacturer's warranty**

Attributes

Attribute	Value
Abstrahlwinkel:	120
Ampere:	1,46
Betriebstemperatur:	-20 bis +45
CRI:	>83
